

RESOURCE AUGMENTATION

Delivering the Right IT Resources at the Right Time

Streamlining Resource Delivery and Staff Augmentation

At times, enterprises look for help in resourcing a project, outsourcing a function or identifying candidates to hire on a full-time basis. Our ability to deliver the right people, at the right time is what differentiates the Auritas resource delivery and outsourcing division from traditional IT staffing vendors.

In order to deliver this high level of value, we first invest in our clients by taking the time to understand their challenges, business objectives, project milestones and pain points. On the candidate recruitment side of the equation, in addition to qualifying a candidate's hard-skills in technology, we extend our assessment to important soft-skills, such as work style preference and interpersonal skills.

Responsiveness in Outsourcing and Offshore Development

Founded by enterprise application consultants from France and India while working in America, Auritas recognized the shortcomings of many outsourcing operations, and launched its Outsourcing Division in 2005 around the disciplines of responsiveness, agility and collaboration that our competitors lack.

Today, Auritas has two state-of-the-art locations in India and has built a highly talented and efficient team of motivated IT professionals and programmers, bringing both value and cost reduction to software development, BPO outsourcing and 24x7 production support to clients in North America. AURITAS delivers the technical expertise and responsiveness expected by large IT organizations.

Bringing a Competitive Advantage to Your IT Department

We aim to provide our clients with a competitive advantage through timely delivery of high quality and cost-effective IT resourcing solutions. Auritas can be a one-stop solution provider for most of your IT requirements, including most of the technologies in the areas of development, implementation, help desk, application support and networking:

- **Development Platforms** • Java, .NET, VB, ABAP, PHP, Perl, C++, SQL, JavaScript
- **Databases** • Oracle, SQL Server, DB2, Sybase, Informix, Teradata, MySQL, Ingres, MS Access

AURITAS STAFFING & OUTSOURCING DIVISION

SAP Services Partner

In addition to our staffing augmentation and offshore services division, Auritas is a leading SAP Services Partner, having served hundreds of SAP clients in North America over the last 10 years. In addition to SAP, Auritas maintains relationships with other leading SAP Partners such as IBM, Open Text, ReadSoft, SAND, Emergys, EMC, Informatica and Esker.

In our SAP practice, we're dedicated to educating our clients as well as our staff, and our experts are frequent speakers at industry meetings such as ASUG, TechEd and Sapphire. Years ago, we pioneered an educational series of webinars, and today thousands of SAP users rely on this program to stay abreast of the latest SAP technologies and solutions.

About AURITAS

Auritas is a global IT services and tools vendor. Committed to delivering innovation and maintaining our rich heritage of excellence, Auritas collaborates with clients to improve business performance and optimize their IT investment.

Based in the technology belt outside of Orlando, and backed by our offshore division in India, Auritas employs only senior-level consultants and programmers and is well-recognized within the IT community as a leader in archiving, document imaging, content management, data warehousing and data migration.

Beyond our core consulting services division, Auritas provides productivity enhancement tools, offshore development and support, and staffing services. If you have an IT requirement, call us at 407-834-8324 or email us at staffing@auritas.com. We look forward to collaborating with your team to improve business performance.
